

Serial No.: 08/482,283

38. A nucleic acid molecule of claim 22, wherein the nucleic acid sequence encodes a polypeptide that is at least 90% homologous to amino acid sequence set forth in claim 22 (A).

39. A nucleic acid molecule of claim 22, wherein the nucleic acid sequence encodes a polypeptide that is at least 95% homologous to amino acid sequence set forth in claim 22 (A).--

### REMARKS

Applicants have added new claims 37 to 39. Support for those claims is included in the originally-filed specification in view of material that was incorporated by reference. See the amendment of the specification in the Amendment that was filed on April 23, 1999, and the discussion about the incorporation by reference of that material at page 4 of that Amendment. Claims 22 to 25 and 37 to 39 are currently pending and under consideration.

Please grant any extensions of time required to enter this supplemental amendment and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
